“As a music educator and 33-year veteran of Summer Music Clinic, I have firsthand experience and have seen the arts and SMC transform and empower lives and voices of our youth. Students, faculty, and staff find an energy, acceptance, and encouragement for their creative lives to connect their artistic ambitions with their future lives in every possible way. SMC is also where many music educators, myself included, find their path. We want to give back because someone gave to us.”

– Carrie Backman, Summer Music Clinic Program Director
